Wednesday, November 3, 2021, 6:40 AM UTC

Shifts/pressure to see clients I don't want to see

Tuesday, November 2, 2021, 4:10 AM UTC

Earnings per client are generally less than doing private bookings due to establishment takings. Some clients do not enjoy the brothel environment and would prefer a more private space.

Saturday, October 30, 2021, 9:21 AM UTC

Pushed to work more shifts, stay longer on shifts, see clients you don't prefer. Can't leave early on shift or risk loose future shifts

Saturday, October 30, 2021, 2:31 AM UTC

You can't set you own standard service price or what standard service is.

Saturday, October 30, 2021, 2:26 AM UTC

There are a lot of beautiful girls that work at the same time so it's more competition

Thursday, October 28, 2021, 10:54 PM UTC

The environment with other sex workers can be toxic at times

Thursday, October 28, 2021, 3:56 PM UTC

Not having enough clients

Thursday, October 28, 2021, 2:05 PM UTC

The split for standard work is unfair at 50/50

The rooms are not always ideal this is because other working girls do not always leave the Booking room at the same standard

Favouritism where the manager friends gets the spa room to rest in and we take bookings for extended hours in the smaller rooms

Managers may assist with selling of your services or they may choose to hamper the booking

Some brothels insist you stay because they are short of girls awaiting their arrival

Tuesday, October 26, 2021, 4:49 AM UTC

Yes. The penalty rates are very bad. Brothels take half of your money and make you feel obligated to work. Many of the staff do not care if you feel unsafe with turning away the client as the owner of the brothel just wants customers. I do not think outcalls are the answer as this just opens the door for brothels to take more money away from the girls who are not being respected or educated.

Tuesday, October 26, 2021, 2:16 AM UTC

none that I know, maybe that we cant keep all funds

Monday, October 25, 2021, 12:36 AM UTC

I find the only disadvantage is they are far from a city and many clients have to leave the city or travel out to come visit there is nothing closer and I feel we lose clients this way and could be busier

Friday, October 22, 2021, 8:42 AM UTC

Yes. Not enough working rooms.

We are all waiting for the next room. Sometimes an hour. Sometimes the customers cancel because they don't want to wait.

8 girls working should have 8 rooms to operate out of.

Friday, October 22, 2021, 8:33 AM UTC

The owner of the Townsville brothel manipulates and push girls and extort clients. Girls have no say on their hours and makes the girls work hours they don't want to and see clients they don't want to.

They allow alcohol and drugs even buy it for girls to help them work.

They often discriminate against transgender workers, forcing them to work in more unsafe, illegal environments and putting them at risk of criminalization and abuse. We have less agency about who comes to meet us, abusive clients are not banned (our safety is less valued than owners money). I have to chose between earning more working independently and having agency

or giving half my earnings to a brothel for a perceived sense of safety (even though it still can be unsafe in legal brothels and I have less agency).

- High room hire rates charged by brothels, resulting in over 50% of the fee going to the brothel
 - Not being able to determine own rates for standard service!!!!
 - Not being able to choose clients based on how much they're offering (e.g. having to take a client offering standard service because they pre-booked over the phone, while another client who wants to book you is interested in multi-hour gfe). This lack of choice can greatly effect overall income. Allowing choice from the provider based on potential earnings may incentivise increased spending from the client.
 - Pressure from managers to intro and/or provide to clients we don't want to service
 - Pressure to stay on shift when feeling unwell or not up to working. This may be from managers, a lack of other workers on shift, or other reasons.
 - Clients often don't understand the nature of services due to the fast turnaround time between them entering the brothel and beginning their appointment, and service providers expecting that the client knows what type of service they're asking for e.g expecting gfe when requesting a standard. When working privately, services can be fully outlined so the client know what to expect ahead of time.

Someone i can go to and if my work place is not treating myself or others fairly, we can go to this place safely without repercussions of loosing work or shifts because I made a complaint. So much gets Un said because of intimidation from managers and owners and they also know this as well. So it doesn't get used against the girls. For example I was yelled at by an owner because I had too many failed health checks according to him. Not caring about the years of experience I had and giving my health any respect, he was more upset that he lost money. There needs to be something where all owners and management can not make a girl feel bad for doing her job safety.
